

FUEL THE FURY, UNLEASH THE BEAST!

Air/Fuel Innovations (AFI) has combined the experience of building street and strip cars of all calibers to develop the latest in fueling technology, the *Top Fuel* fuel pump.

A WOLF IN SHEEP'S CLOTHING

Many years of testing and development have led to our concept of merging OEM durability, reliability and quietness with the ability to keep up with your fueling supply -no matter what. Available in three models, the Top Fuel fuel pump effortlessly supports horsepower levels from 300 HP to 3000 HP - and you won't even hear it running.

OUTCLASS THE COMPETITION

- Three models available to meet the needs of Street and Strip
- Built with OEM durability and for maximum performance
- Works well for both EFI and Carbureted applications
- Nearly SILENT compared to competitor's models
- No external voltage regulator needed for street use
- Inlet and Outlet fittings are built into the pump
- Built-in one way check valve to maintain line pressure for EFI

TOP FUEL

	TOP FUEL III	TOP FUEL II	TOP FUEL I
Price*	\$699	\$610	\$490
13.5V Flow at 20psi**	1600 lb / hr	1002 lb / hr	510 lb / hr
13.5V Flow at 45psi**	1480 lb / hr	925 lb / hr	480 lb / hr
13.5V Flow at 62psi**	1360 lb / hr	848 lb / hr	450 lb / hr
Rated for Street Use?	Yes	Yes	Yes
Inlet / Outlet Size	-8, -10 or -12 available in any combination	-8, -10 or -12 available in any combination	-8, -10 or -12 available in any combination
Inlet / Outlet Type	Male fittings machined into housing	Male fittings machined into housing	Male fittings machined into housing
Check Valve+ (Maintains pressure in lines for easier starting)	Yes	Yes	Yes
Color Options	Polished with clear or black anodization	Polished with clear or black anodization	Polished with clear or black anodization

*AFI reserves the right to change pricing at any time. ** All testing done with gasoline and all numbers based on actual measurements at 13.5V.
+ May be removed for higher flow numbers

QUIET OPERATION

Our innovative design assures lower db levels.

INTEGRATED MOUNTING FLANGE

No clunky mounting brackets.

OUT FLOWS THE COMPETITION

Maintains higher flow rates at high pressure.
